DETAILED ACTION

Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - Claims 1-5 and 8-11, drawn to a method of selecting a satellite signal
 where a first and second command signal are sent from the integrated
 receiver/decoder to the selector switch, classified in class 725, subclass
 68.
 - II. Claims 6-7 and 12-13, drawn to a method of selecting a satellite signal where the integrated receiver/decoder repeatedly send a command signal to the selector switch, classified in class 725, subclass 68.

The inventions are distinct, each from the other because of the following reasons:

- 2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as repetitive command signal from the integrated receiver/decoder to the selector switch, which does not list the features listed in group I. See MPEP § 806.05(d).
- 3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, and because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
- 4. A telephone call was made to Jack Schwartz on 5/26/2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Application/Control Number: 09/475,444

Art Unit: 2614

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John Manning whose telephone number is 703-305-0345. The examiner can normally be reached on M-F: 7:30 - 5:00 (off every other Wednesday).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John W Miller can be reached on 703-305-4795.
